“ I worked with Henry at Hoffco. I worked in product engineering and we were able to make our products lead the industry, because of Henry's knowledge and desire to continually learn more advanced methods of machining. I learned every day from Henry. I always enjoyed going to the Machine tool show in Chicago with him. We always came away with more knowledge and had fun doing it. I tried to find out where he went after Hoffco closed, and did not know he moved to New Castle. He had a positive effect on my life. I wish the family all the best and want you to know he is in a better place now.
